1 Identification

- · Product identifier
- · Trade name: Right Off With Compliant
- · Article number: 9130 PK
- · Details of the supplier of the safety data sheet
- Manufacturer/Supplier: Power Kleen Corporation 101 South Bayview Blvd. OLDSMAR, FL 34677 USA

- **Power Kleen** Quality Chemicals • Superior Service
- · Information department: Product Safety Department
- Emergency telephone number: ChemTel Inc. (800) 255-3924 Intl. +01 (813) 248-0585

2 Hazard(s) identification

· Classification of the substance or mixture

GHS07

Acute Toxicity - Oral 4H302 Harmful if swallowed.Eye Irritation 2AH319 Causes serious eye irritation.

- · Label elements
- · GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS).
- · Hazard pictograms

· Signal word Warning · Hazard-determining components of labeling: Mineral Acid Salt of Organic Amide · Hazard statements Harmful if swallowed. Causes serious eye irritation. · Precautionary statements P280 Wear protective gloves/protective clothing/eye protection/face protection. *P301+P312* If swallowed: Call a poison center/doctor if you feel unwell. P330 Rinse mouth. P305+P351+P338 If in eves: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337+P313 If eye irritation persists: Get medical advice/attention. P501 Dispose of contents/container in accordance with local/regional/national/international regulations. · Classification system: · NFPA ratings (scale 0 - 4) Health = 1Fire = 0Reactivity = 0

- HMIS-ratings (scale 0 4) Health = 1
- *Fire* = 0
- Reactivity = 0
- Other hazards
- Results of PBT and vPvB assessment
- *PBT*: Not applicable.
- **vPvB:** Not applicable.

3 Composition/information on ingredients

- · Chemical characterization: Mixtures
- · Description: Mixture of the substances listed below with nonhazardous additions.

· Dangerous components:

Mineral Acid Salt of Organic Amide

Inhibited Phosphoric Acid 70%

4 First-aid measures

• Description of first aid measures

• General information:

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

- After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact: Generally the product does not irritate the skin.
- After eye contact:
- Remove contact lenses if able to do so.
- Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
- After swallowing:
- Rinse out mouth and then drink plenty of water.
- A person vomiting while lying on their back should be turned onto their side.
- Immediately call a doctor.
- Information for doctor:
- Most important symptoms and effects, both acute and delayed Nausea
- Gastric or intestinal disorders
- Cramp
- Thirst
- *Indication of any immediate medical attention and special treatment needed Medical supervision for at least 48 hours.*

5 Fire-fighting measures

- · Extinguishing media
- Suitable extinguishing agents: Use fire fighting measures that suit the environment.
- Special hazards arising from the substance or mixture Hydrogen chloride (HCl)

(Contd. on page 3)

- Advice for firefighters
- **Protective equipment:** Firefighters should wear NIOSH/MSHA approved self-contained breathing apparatus and full protective clothing.

6 Accidental release measures

• Personal precautions, protective equipment and emergency procedures Not required. • Environmental precautions:

Do not allow undiluted product to enter storm sewers/surface or ground water. Dilute with plenty of water.

- Methods and material for containment and cleaning up: Dilute with plenty water. Clean the affected area carefully; suitable cleaners are: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to item 13.
- *Reference to other sections* See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 Handling and storage

· Handling:

- · Precautions for safe handling Avoid splashes or spray in enclosed areas.
- · Information about protection against explosions and fires: No special measures required.
- · Conditions for safe storage, including any incompatibilities
- · Storage:
- Requirements to be met by storerooms and receptacles: Unsuitable material for receptacle: steel.
- · Information about storage in one common storage facility:
- Store away from foodstuffs.
- Store away from oxidizing agents.
- · Further information about storage conditions:
- Store receptacle in a well ventilated area.
- Keep receptacle tightly sealed.
- Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

- Additional information about design of technical systems: No further data; see item 7.
- · Control parameters
- · Components with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

· Additional information: The lists that were valid during the creation were used as basis.

· Exposure controls

- · Personal protective equipment:
- General protective and hygienic measures: Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work.

10 Stability and reactivity

- · Reactivity No further relevant information available.
- · Chemical stability
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- **Possibility of hazardous reactions** Reacts with metals forming hydrogen. Reacts with strong oxidizing agents.
- Reacts with strong alkali.
- *Conditions to avoid No further relevant information available.*
- · Incompatible materials: No further relevant information available.
- Hazardous decomposition products:

Hydrogen

Carbon monoxide and carbon dioxide

Nitrogen oxides

Hydrogen chloride (HCl)

11 Toxicological information

- · Information on toxicological effects
- Acute toxicity:
- Primary irritant effect:
- on the skin: No irritant effect.

• on the eye: Irritating effect.

• Sensitization: No sensitizing effects known.

• Additional toxicological information:

The product shows the following dangers according to internally approved calculation methods for preparations: Harmful

Irritant

· Carcinogenic categories

· IARC (International Agency for Research on Cancer)

None of the ingredients is listed.

· NTP (National Toxicology Program)

no ingredient above de minimis level is listed

· OSHA-Ca (Occupational Safety & Health Administration)

None of the ingredients is listed.

12 Ecological information

· Toxicity

- · Aquatic toxicity: No further relevant information available.
- · Persistence and degradability No further relevant information available.
- · Behavior in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- *Mobility in soil* No further relevant information available.
- Additional ecological information:
- · General notes:

Water hazard class 1 (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system. Rinse off of bigger amounts into drains or the aquatic environment may lead to decreased pH-values. A low pH-value harms aquatic organisms. In the dilution of the use-level the pH-value is considerably increased, so that after the use of the product the aqueous waste, emptied into drains, is only low water-dangerous.

· Results of PBT and vPvB assessment

• **PBT:** Not applicable.

· vPvB: Not applicable.

· Other adverse effects No further relevant information available.

13 Disposal considerations

· Waste treatment methods

· Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach waterways or storm sewers. Disposal must be made in accordance with local ,state and federal regulations. Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

- Uncleaned packagings:
- *Recommendation: Disposal must be made according to official regulations.*
- Recommended cleansing agent: Water, if necessary with cleansing agents.

Chemicals known to cause developmental toxicity: None of the ingredients is listed. Carcinogenic categories EPA (Environmental Protection Agency) None of the ingredients is listed. TLV (Threshold Limit Value) None of the ingredients is listed. NIOSH-Ca (National Institute for Occupational Safety and Health) None of the ingredients is listed. GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS). Hazard pictograms Voor GHS07 Signal word Warning Hazard-determining components of labeling: Mineral Acid Salt of Organic Amide Hazard statements Harmful if swallowed. Causes serious eye irritation. Precautionary statements	Chemicals known to cause reproductive toxicity for males.	
None of the ingredients is listed. Carcinogenic categories EPA (Environmental Protection Agency) None of the ingredients is listed. TLV (Threshold Limit Value) None of the ingredients is listed. NIOSH-Ca (National Institute for Occupational Safety and Health) None of the ingredients is listed. GHS tabel elements The product is classified and labeled according to the Globally Harmonized System (GHS). Hazard pictograms GHS07 Signal word Warning Hazard-determining components of labeling: Mineral Acid Salt of Organic Amide Harmful if swallowed. Causes serious eye irritation. Precautionary statements	None of the ingredients is listed.	
Carcinogenic categories EPA (Environmental Protection Agency) None of the ingredients is listed. TLV (Threshold Limit Value) None of the ingredients is listed. NIOSH-Ca (National Institute for Occupational Safety and Health) None of the ingredients is listed. GHS tabel elements The product is classified and labeled according to the Globally Harmonized System (GHS). Hazard pictograms GHS07 Signal word Warning Hazard-determining components of labeling: Mineral Acid Salt of Organic Amide Hazard statements Harmful if swallowed. Causes serious eye irritation. Precautionary statements	Chemicals known to cause developmental toxicity:	
EPA (Environmental Protection Agency) None of the ingredients is listed. TLV (Threshold Limit Value) None of the ingredients is listed. NIOSH-Ca (National Institute for Occupational Safety and Health) None of the ingredients is listed. GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS). Hazard pictograms GHS07 Signal word Warning Hazard-determining components of labeling: Mineral Acid Salt of Organic Amide Hazard statements Harmful if swallowed. Causes serious eye irritation. Precoutionary statements	None of the ingredients is listed.	
None of the ingredients is listed. TLV (Threshold Limit Value) None of the ingredients is listed. NIOSH-Ca (National Institute for Occupational Safety and Health) None of the ingredients is listed. GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS). Hazard pictograms GHS07 Signal word Warning Hazard-determining components of labeling: Mineral Acid Salt of Organic Amide Hazard statements Harmful if swallowed. Causes serious eye irritation. Precautionary statements	Carcinogenic categories	
TLV (Threshold Limit Value) None of the ingredients is listed. NIOSH-Ca (National Institute for Occupational Safety and Health) None of the ingredients is listed. GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS). Hazard pictograms Of HS07 Signal word Warning Hazard-determining components of labeling: Mineral Acid Salt of Organic Amide Hazard statements Harmful if swallowed. Causes serious eye irritation. Precautionary statements	EPA (Environmental Protection Agency)	
None of the ingredients is listed. NIOSH-Ca (National Institute for Occupational Safety and Health) None of the ingredients is listed. GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS). Hazard pictograms	None of the ingredients is listed.	
NIOSH-Ca (National Institute for Occupational Safety and Health) None of the ingredients is listed. GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS). Hazard pictograms	TLV (Threshold Limit Value)	
None of the ingredients is listed. GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS). Hazard pictograms GHS07 Signal word Warning Hazard-determining components of labeling: Mineral Acid Salt of Organic Amide Hazard statements Harmful if swallowed. Causes serious eye irritation. Precautionary statements	None of the ingredients is listed.	
GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS). Hazard pictograms GHS07 Signal word Warning Hazard-determining components of labeling: Mineral Acid Salt of Organic Amide Hazard statements Harmful if swallowed. Causes serious eye irritation. Precautionary statements	NIOSH-Ca (National Institute for Occupational Safety and Health)	
Hazard pictograms	None of the ingredients is listed.	
Signal word Warning Hazard-determining components of labeling: Mineral Acid Salt of Organic Amide Hazard statements Harmful if swallowed. Causes serious eye irritation. Precautionary statements	GHS label elements The product is classified and labeled according to the Globally Harmonize Hazard pictograms	ed System (GHS).
Hazard-determining components of labeling: Mineral Acid Salt of Organic Amide Hazard statements Harmful if swallowed. Causes serious eye irritation. Precautionary statements	GHS07	
Mineral Acid Salt of Organic Amide Hazard statements Harmful if swallowed. Causes serious eye irritation. Precautionary statements	Signal word Warning	
Precautionary statements	Hazard-determining components of labeling: Mineral Acid Salt of Organic Amide Hazard statements Harmful if swallowed. Causes serious eve irritation
